Wood & Metal

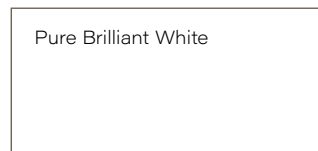

Satin Try Berger Satin for a modern, soft sheen finish for all interior wood and metal.

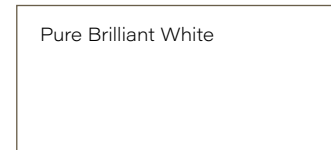

Quick Dry Satin

Use Berger Quick Dry Satin for a silk finish for all interior wood and metal.

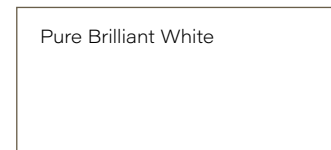

Non Drip Gloss

Tough and durable, Berger Non Drip Gloss is easy to apply on all wood and metal because it's drip resistant. Use inside or out for a high shine finish.

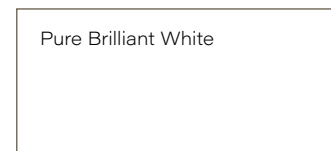

Quick Dry Gloss

A fast drying finish, Berger Quick Dry Gloss for interior and exterior wood and metal.

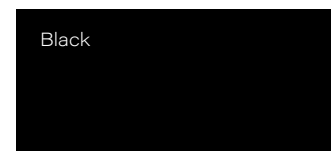

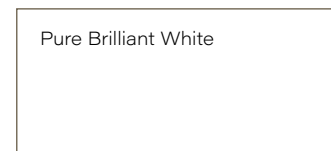

One Coat Gloss

Berger One Coat Gloss provides the durability of a traditional gloss, but with the added benefit of a one coat formulation, for even quicker application on all wood and metal.

Liquid Gloss

A traditional high shine finish, Berger Liquid Gloss offers a glossy and classic look to all interior and exterior wood and metal.

Preparation

Use Berger Wood Primer to seal and Berger Satin for a soft, modern finish.

Wood Primer

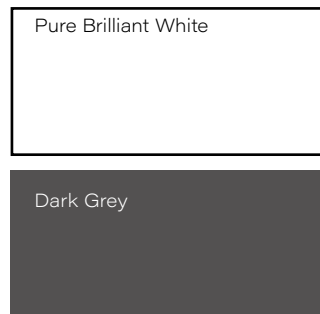

Prime any interior or exterior bare wood with Berger Wood Primer to ensure the surface is sealed and protected before you paint.

Quick Dry Primer Undercoat

A water based and quick drying primer, Berger Quick Dry Primer Undercoat is suitable for both wood and metal interior surfaces.

Undercoat

Use Berger Undercoat on pre-painted wood or metal before you apply your chosen Satin or Gloss topcoat. To cover stronger colours our Dark Grey Undercoat is ideal.

Exterior

Weathercoat Smooth Masonry

A smooth and flexible formulation to resist damage, containing fungicide to prevent mould and algae growth. Use for the ultimate weather protection.
